Galaxy Formation (Astronomy and Astrophysics Library) Malcolm S. Longair

This is a textbook for graduate students in astrophysics. The author is extremely well known not only as an astrophysicist but also as a writer of superb talent. The presentation is clear and the book should become a favourite text for students. It deals with the matter and radiation content of the universe, and the formation of galaxies, and it gives a comprehensive introduction to relativistic astrophysics as needed for the clarification of cosmological ideas.
