This volume makes available in an English translation the most significant part of Montesquieu's political, social and legal theory. About two-thirds of the volume has been translated from the *Spirit of the Laws*, not redone in English since the eighteenth century. That version was notoriously inadequate: Montesquieu's key terms were not rendered consistently; often his meaning was distorted by giving the nearest English eighteenth-century legal or institutional equivalent. Finally, English usage has changed so much that the eighteenth-century translation makes Montesquieu seem both quaint and obscure. This volume also includes substantial selections from the *Persian Letters* and the *Considerations on the Causes of the Romans; Greatness and Decline*. Although adequate translations of these works exist, it seemed advisable to maintain intellectual and stylistic consistency by providing English versions on the same principles as the *Spirit of the Laws*.
