The way you eat and the amount of food you consume actually impacts your body when it comes to cancer. Nowadays, there are many causes of cancer are environmental, largely from tobacco, excessive sun exposure and workplace hazards such as chemical solvents and fumes. Bearing that in mind, it is very important for all of us to take a step back and really look into our eating style.

A strong reason for me to write this book is because I always believe in the saying that “Prevention is better than cure”. And the good news is you can find the list of foods included in my book that are associated with a lower risk of getting cancer. Start to protect your health and your family’s health TODAY!
