Exam 98-367 Security Fundamentals Microsoft Official Academic Course
Students who are beginning studies in technology need a strong foundation in the basics before moving on to more advanced technology courses and certification programs.   The Microsoft Technology Associate (MTA) is a new and innovative certification track designed to provide a pathway for future success in technology courses and careers. The MTA program curriculum helps instructors teach and validate fundamental technology concepts and provides students with a foundation for their careers as well as the confidence they need to succeed in advanced studies. Through the use of MOAC MTA titles you can help ensure your students future success in and out of the classroom. Vital fundamentals of security are included such as understanding security layers, authentication, authorization, and accounting. They will also become familair with security policies, network security and protecting the Server and Client.
