# Public Key Cryptography -- PKC 2004: 7th International Workshop on Theory and Practice in Public Key Cryptography, Singapore, March 1-4, 2004 (Lecture Notes in Computer Science)

## Public Key Cryptography -- PKC 2004: 7th International Workshop on Theory and Practice in Public Key Cryptography, Singapore, March 1-4, 2004 (Lecture Notes in Computer Science)

PKC2004 was the 7th International Workshop on Practice and Theory in Public Key Cryptography and was sponsored by IACR, the International Association for Cryptologic Research ([www.iacr.org](http://www.iacr.org)). This year the workshop was organized in cooperation with the Institute for Infocomm Research (IIR), Singapore. There were 106 paper submissions from 19 countries to PKC 2004. That is the highest submission number in PKC history. Due to the large number of submissions and the high quality of the submitted papers, not all the papers that contained new ideas were accepted. Of the 106 submissions, 32 were selected for the proceedings. Each paper was sent to at least 3 members of the Program Committee for comments. The revised versions of the accepted papers were not checked for correctness of their scientific aspects and the authors bear the full responsibility for the contents of their papers. Some authors will write final versions of their papers for publication in refereed journals. I am very grateful to the members of the Program Committee for their hard work in the difficult task of selecting fewer than 1 in 3 of the submitted papers, as well as the following external referees who helped the Program Committee: Nuttapong Attrapadung, Roberto Maria Avanzi, Gildas Avoine, Joonsang Baek, Qingjun Cai, Jae Choon Cha, Chien-Ning Chen, Liqun Chen, Xiaofeng Chen, Koji Chida, Nicolas T. Courtois, Yang Cui, Jean-Francois Dhem, Louis Goubin, Louis Granboulan, Rob Granger, Jens Groth, Yumiko Hanaoka, Darrel Hankerson, Chao-Chih Hsu, Tetsutaro Kobayashi, Yuichi Komano, Hidenori Kuwakado, Tanja Lange, Peter Leadbitter, Byoungcheon Lee, Chun-Ko Lee, Henry C. J. Lee, John Malone Lee, Yong Li, Benoît Libert, Hsi-Chung Lin, Yi Lu, Jean Monnerat, Anderson C. A. Nascimento, C.

**From reader reviews:**

**Tonia Jensen:**

Do you have favorite book? When you have, what is your favorite's book? E-book is very important thing for us to find out everything in the world. Each publication has different aim as well as goal; it means that guide has different type. Some people truly feel enjoy to spend their time and energy to read a book. They are reading whatever they have because their hobby is actually reading a book. What about the person who don't like looking at a book? Sometime, man feel need book whenever they found difficult problem as well as exercise. Well, probably you will require this Public Key Cryptography -- PKC 2004: 7th International Workshop on Theory and Practice in Public Key Cryptography, Singapore, March 1-4, 2004 (Lecture Notes in Computer Science).

**Lenore Ryan:**

What do you about book? It is not important to you? Or just adding material when you want something to explain what your own problem? How about your time? Or are you busy individual? If you don't have spare time to complete others business, it is make one feel bored faster. And you have extra time? What did you do? All people has many questions above. They have to answer that question mainly because just their can do that. It said that about book. Book is familiar in each person. Yes, it is correct. Because start from on kindergarten until university need this specific Public Key Cryptography -- PKC 2004: 7th International Workshop on Theory and Practice in Public Key Cryptography, Singapore, March 1-4, 2004 (Lecture Notes in Computer Science) to read.

**Maude Porter:**

Playing with family within a park, coming to see the coastal world or hanging out with friends is thing that usually you will have done when you have spare time, then why you don't try matter that really opposite from that. Just one activity that make you not feeling tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Public Key Cryptography -- PKC 2004: 7th International Workshop on Theory and Practice in Public Key Cryptography, Singapore, March 1-4, 2004 (Lecture Notes in Computer Science), you are able to enjoy both. It is good combination right, you still wish to miss it? What kind of hangout type is it? Oh occur its mind hangout fellas. What? Still don't have it, oh come on its named reading friends.

**James Hudson:**

That reserve can make you to feel relax. That book Public Key Cryptography -- PKC 2004: 7th International Workshop on Theory and Practice in Public Key Cryptography, Singapore, March 1-4, 2004 (Lecture Notes in Computer Science) was bright colored and of course has pictures on there. As we know that book Public Key Cryptography -- PKC 2004: 7th International Workshop on Theory and Practice in Public Key

Cryptography, Singapore, March 1-4, 2004 (Lecture Notes in Computer Science) has many kinds or type. Start from kids until teens. For example Naruto or Investigation company Conan you can read and think you are the character on there. Therefore not at all of book are generally make you bored, any it can make you feel happy, fun and loosen up. Try to choose the best book for yourself and try to like reading in which.
