Reuse, Reduce, Recycle shouldn't include people.

Normally, freezing to death in deep space is pretty permanent. But Engineer Josie Stein was just defrosted a thousand years in the future, aboard the U.F.S. *Greenstar*, a recycled spaceship on a mission to stop the self-destructive aliens of the galaxy from wiping themselves out.

If that wasn't enough, she's immediately elected captain. The last captain's success rate was one hundred and sixty-seven alien species extinct to zero saved, so she can't really do any worse. But how can she deal with aliens when she can no longer understand her own species?

Inspired by *Star Trek* and *Buck Rogers*, *Greenstar* is a funny, action-packed take on the future, filled with strange aliens and neurotic characters.
