Excerpt from Call to Action: An Interpretation of the Great Uprising, Its Source and Causes

The author's object in publishing this book is to call attention to some of the more serious evils which now disturb the repose of American society and threaten the overthrow of free institutions.

We are nearing a serious crisis. If the present strained relations between wealth owners and wealth producers continue much longer they will ripen into frightful disaster. This universal discontent must be quickly interpreted and its causes removed. It is the country's imperative Call to Action, and can not be longer disregarded with impunity.

The sovereign right to regulate commerce among our magnificent union of States, and to control the instruments of commerce, the right to issue the currency and to determine the money supply for sixty-three million people and their posterity, have been leased to associated speculators. The brightest lights of the legal profession have been lured from their honorable relation to the people in the administration of justice, and through evolution in crime the corporation has taken the place of the pirate; and finally a bold and aggressive plutocracy has usurped the Government and is using it as a policeman to enforce its insolent decrees. It has filled the Senate with its adherents, it controls the popular branch of the National Legislature by cunningly filling the Speaker's chair with its representatives, and it has not hesitated to tamper with our Court of last resort.
