Beginning J2EE 1.4: From Novice to Professional (Apress Beginner Series) James L. Weaver, Kevin Mukhar, James P. Crume, Ivor Horton

*This book is more than simply a reprint of material already freely available on the Web (I'm looking at you, The J2EE Tutorial).

* Concentrates on the parts of J2EE that readers find most interesting, accessible, and relevant for the start of their professional career – JSP and Servlets, rather than in depth coverage of EJB—helps reader accomplish something and may spark interest for further exploration of J2EE.

* This title will concentrate on web development (using JSP and Servlets) but still be aimed at programmers who want to become J2EE developers – so it will be a title for the Java category, not JavaServer Pages.
