Badly damaged in a close encounter with a dwarf star, the *Voyager*™ discovers a planet being torn apart by tremendous volcanic stresses. The planet's primitive inhabitants will surely perish unless the *Voyager* intervenes -- but the Prime Directive forbids them to act. And then the dilemma is increased by the arrival of another starship, a Televek vessel, whose crew offer to help both the *Voyager* and the people of the crumbling planet. But Janeway senses something amiss with their saviors, and she's haunted by ghostly visions warning her of a threat that make her loathe to accept anything from the Televek, even though they may be her only hope.
