The Period of Fortification, 1880-1898 The burst of capitalistic expansion that accompanied German unification came to an abrupt end with the crash of 1873, which opened a period of economic depression. Volume III describes the continuation of Bismarck's efforts to cope with the resulting economic and social problems that hindered his quest for a new national consensus in support of the Prussian-German establishment." It also brings to a climax the author's account of Bismarck's mounting political frustrations, their psychopathological consequences, and the struggle of his doctors to convert him to a healthier life-style. The final chapters deal with the fascinating story of Bismarck's conflict with Wilhelm II. The work ends with an account of the Bismarck legend that endures to this day and may yet influence Germany's current quest for reunification.
