Questions Why are there so many problems on our world? Are the children of the world going to be okay? What about the other holocausts! Why is everyone getting so sick? If there is so much money in the world, why are there poor people? Why are so many things called conspiracies? Was it always like this? Have today's musical arts benefited anyone? Who are the heroes of today, and what should we believe for life & death? What are some ways to fix our world? This book is designed to assist you in answering these and other questions. It is a compilation of a few months of research. Some questions have been left open for you to answer, or may be included in another book. Again, full praise is given to all the women, men, and children that inspired my research. Special appreciation is given to my family, friends, and those that have crossed over. Prof. Quinton D.
