## **Weed Science in the Tropics: Principles and Practices I.Okezie Akobundu**

Excessive weed growth is one of the most serious problems facing farmers throughout the tropics. There is a need for professionally trained weed scientists to become involved in research at the highest level, where existing technologies can be further developed and new ones generated. The book considers in depth the concepts, principles and practice of tropical agriculture and introduces students and teachers to weed science as an integral part of a crop protection programme.
