## **Educational Psychology and the Internet** Michael Glassman

The first comprehensive, research-based textbook on Internet-infused education, *Educational Psychology and the Internet* offers students an accessible guide to important issues in the field. Michael Glassman begins with an overview of the history that traces the evolution of the Internet and its significance for education. He outlines the current state of research, clearly defining terms that students will need to discuss larger concepts, such as hypertext and cyberspace. The second part of the book explores the practical applications of this research, which range from the individual-oriented to the generalized, including massive open online courses (MOOCs), open educational resources, and augmented reality. Key issues that affect teachers and students today, such as Net Neutrality and Creative Commons and Open Source licenses, are explained in straightforward terms, and often-overlooked differences - for example, between course management systems and learning management systems, and between blogs, social networking sites, and short messaging systems - are highlighted.

### From reader reviews:

#### **Steve Bennett:**

What do you concentrate on book? It is just for students because they are still students or the item for all people in the world, exactly what the best subject for that? Just you can be answered for that problem above. Every person has diverse personality and hobby for each and every other. Don't to be obligated someone or something that they don't wish do that. You must know how great in addition to important the book Educational Psychology and the Internet. All type of book can you see on many options. You can look for the internet options or other social media.

#### **Jim May:**

Information is provisions for folks to get better life, information presently can get by anyone with everywhere. The information can be a understanding or any news even a huge concern. What people must be consider if those information which is within the former life are hard to be find than now is taking seriously which one would work to believe or which one the particular resource are convinced. If you receive the unstable resource then you get it as your main information you will have huge disadvantage for you. All of those possibilities will not happen in you if you take Educational Psychology and the Internet as the daily resource information.

#### **Tony Partee:**

Reading a book tends to be new life style in this era globalization. With looking at you can get a lot of information that could give you benefit in your life. With book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. A great deal of author can inspire their reader with their story or perhaps their experience. Not only situation that share in the guides. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors on this planet always try to improve their skill in writing, they also doing some analysis before they write for their book. One of them is this Educational Psychology and the Internet.

#### **Juli Gadberry:**

People live in this new morning of lifestyle always try to and must have the free time or they will get large amount of stress from both lifestyle and work. So , once we ask do people have time, we will say absolutely of course. People is human not only a robot. Then we inquire again, what kind of activity are you experiencing when the spare time coming to you actually of course your answer will probably unlimited right. Then ever try this one, reading books. It can be your alternative with spending your spare time, the actual book you have read is definitely Educational Psychology and the Internet.
