God Gave the Growth: Church Planting in the Episcopal Church Susan Brown Snook

"The Episcopal Church has recognized that planting new churches is a high priority through the Mission Enterprise Zones initiative, which provides grant funding for new worshipping communities, in partnership with dioceses. While there is significant literature and training available for church planters in evangelical contexts, very little is available for planters in the Episcopal/mainline context.

This book addresses how to rise up and train leaders for the difficult task of planting new churches in the twenty-first century. It answers the essential questions, such as why should we plant churches, what models of church planting are most successful, what kinds of leaders are necessary, and what problems can be expected. Through the author's personal experience and interviews with diocesan experts and leaders in mainline denominations, it provides strategies, approaches, and problem-solving techniques."
