Interactions: Collaboration Skills for School Professionals (6th Edition) Marilyn Friend, Lynne Cook
The most widely-used text on the topic of collaboration, *Interactions* is a guide for preprofessionals and professionals to help them understand and participate effectively in their interactions with other school professionals and parents. It addresses collaboration as a style, with accompanying knowledge and skills, that guides practices in many education efforts.

Interactions provides a cutting-edge look at how teams of school professionals—special educators, general educators and related services professionals—can effectively work together to provide a necessary range of services to students with special needs. As a result, future teachers learn how to collaborate with school professionals and families to help special education students who are more often being placed in general education settings.

New to this Edition!

- **Chapter on collaborating with Families**--Back by popular demand is a full chapter on family collaboration (chapter 8) which details the role teachers can and should play with families of students with disabilities.
- **Case Study Activity** -- Each chapter now concludes with a reflective case study that will allow students to apply concepts learned in the chapter.
