Beneath Flanders Fields: The Tunnellers' War 1914-18 Peter Barton, Peter Doyle, Johan Vandewalle

The result of over twenty-five years of research, *Beneath Flanders Fields* reveals how this intense underground battle was fought and won. The authors give the first full account of mine warfare in World War I through the words of the tunnellers themselves as well as plans, drawings, and previously unpublished archive photographs, many in colour. *Beneath Flanders Fields* also shows how military mining evolved. The tunnellers constructed hundreds of deep dugouts that housed tens of thousands of troops. Often electrically lit and ventilated, these tunnels incorporated headquarters, cookhouses, soup kitchens, hospitals, drying rooms, and workshops. A few dugouts survive today, a final physical legacy of the Great War, and are presented for the first time in photographs in *Beneath Flanders Fields*.
